***Instructions to the teacher:***

My suggestion for grading the chapter 1 test is below. The total is 27 points. Divide the student's score by the total of 27 to get a decimal number, and change that decimal to percent to get the student's percentage score.

| Question # | Max. points | Student score |
|------------|-------------|---------------|
| 1          | 5 points    |               |
| 2          | 3 points    |               |
| 3          | 3 points    |               |
| 4          | 3 points    |               |

| Question # | Max. points | Student score |
|------------|-------------|---------------|
| 5          | 3 points    |               |
| 6          | 4 points    |               |
| 7          | 6 points    |               |
