

Cumulative Review, Grade 1, Chapters 1 - 5

In this “circle sum”, the (horizontal) sum $3 + 2 + 5$ equals the (vertical) sum of $6 + 2 + 2$.

Both equal 10.

1. Put a number in the empty circle so that the sum of the numbers connected horizontally (across) is the same as the sum of the numbers vertically (down).

a.	b.	c.
------------------	------------------	------------------

2. This circle sum has many possible solutions. Find three of them!

3. Count. You may also do this orally with your teacher.

96, 97, _____, _____, _____, _____,

_____, _____, _____, _____, _____, _____

4. Connect the sums that are equal with a line. One sum will not get connected.

$1 + 4$

$6 + 2$

$5 + 4$

$3 + 7$

$3 + 4$

$1 + 3$

$3 + 6$

$2 + 3$

$5 + 2$

$4 + 4$

$2 + 8$

5. Solve.

a. A baby put some of his ten crayons into a bucket. Then he had 4 crayons on the floor. How many did he put into the bucket?

b. Theresa ate 10 cherries. A little later, she ate 4 more cherries. How many cherries has she eaten by now?

c. Emilia gave two of her 8 dolls to her sister.
How many dolls does Emilia have now?

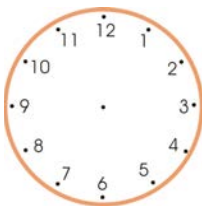

6. Write with numbers. Then also say the name of each number.

a. two tens

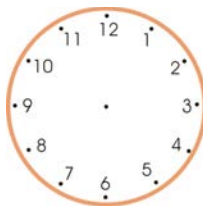

b. ten tens

c. five tens two ones

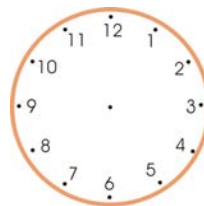

7. Draw the hour hand on the clocks. Then write the time a half-hour later.

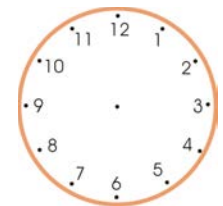

a. two o'clock

b. ten o'clock

c. half-past six

d. half-past eight

1/2 hour
later →

_____ : _____

_____ : _____

_____ : _____

_____ : _____

8. Fill in either AM or PM.

a. You woke up.
It was 7 _____.

b. Jon plays in
the afternoon at 3 _____.

c. Joe is asleep.
It is dark. It is 1 _____.
