

Cumulative Review, Grade 1, Chapters 1-8

1. Complete. Then connect with a line the facts from the same fact family.

$$2 + \underline{\quad} = 6$$

$$10 - \underline{\quad} = 3$$

$$\underline{\quad} + 5 = 9$$

$$8 - \underline{\quad} = 2$$

$$\underline{\quad} - 6 = 2$$

$$9 - \underline{\quad} = 5$$

$$7 + 3 = \underline{\quad}$$

$$2 + 4 = \underline{\quad}$$

$$\underline{\quad} - 7 = 3$$

$$\underline{\quad} - 2 = 4$$

$$2 + \underline{\quad} = 8$$

$$4 + 5 = \underline{\quad}$$

2. How many centimeters long are these things?

a.

 _____ cm

b.

 _____ cm

c.

_____ cm

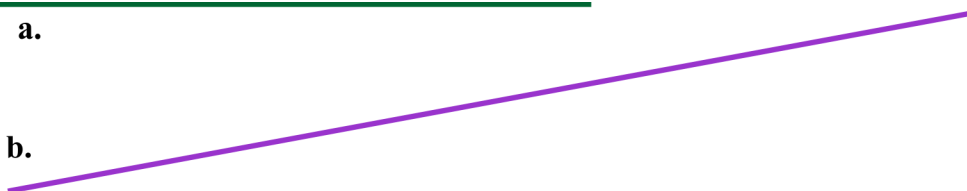

3. Measure these lines in centimeters with your ruler.

a.

b.

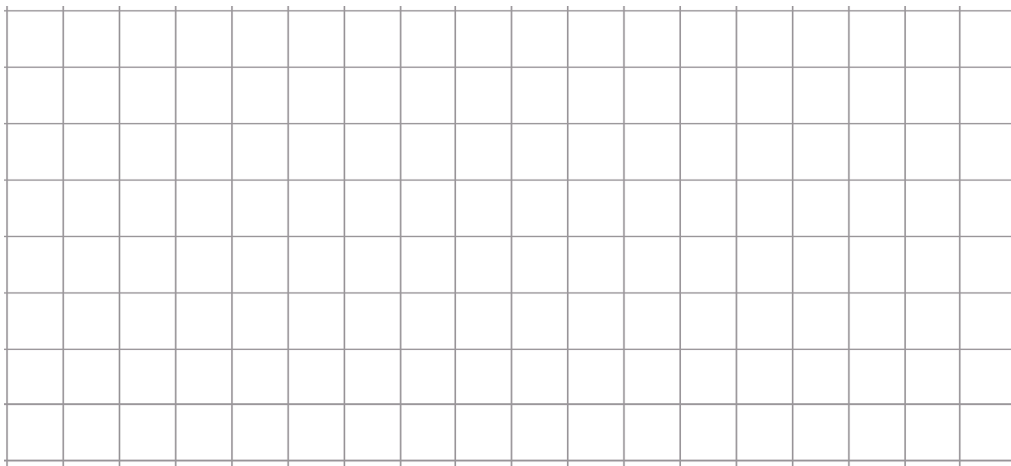

4. Subtract and add.

a. $25 + 10 =$ _____	b. $90 - 30 =$ _____	c. $92 - 10 =$ _____
$60 + 20 =$ _____	$100 - 70 =$ _____	$64 - 10 =$ _____

5. Count by tens.

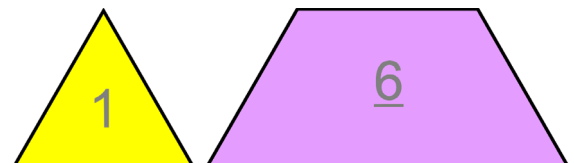

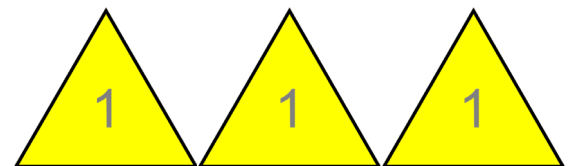

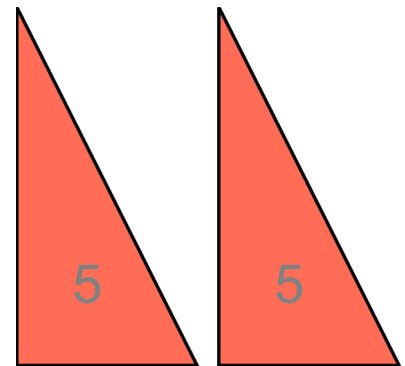

16, 26, _____, _____, _____, _____, _____

6. Draw at least three different shapes that you have learned, and label them.

7. Trace and cut the shapes to do the exercises, or if you can, imagine putting the shapes together, and sketch (draw) the shapes for the answer.

- a. Put together the #5 triangles so that they form a rectangle.
- b. Now place them together so that you get a different four-sided shape (not a rectangle).
- c. Use some of the #1 (yellow) triangles to form the purple shape (#6)
- d. Now use a #1 triangle and the purple shape. What shapes can you make with these two?

8. Draw the missing marbles to match the addition sentence.

 a. $3 + 2 + \underline{\quad} = 8$	 b. $1 + 5 + \underline{\quad} = 10$
--	--

9. Write $<$ or $>$ between the numbers to compare them.

- a. $30 \square 38$ b. $87 \square 85$ c. $69 \square 96$ d. $58 \square 56$

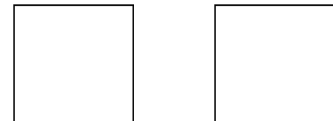

10. Compare. Write $<$, $>$, or $=$.

a. $62 \square 3 + 60$	c. $10 - 2 \square 7$	e. $7 \square 9 - 2$
b. $54 \square 42 + 10$	d. $6 - 5 \square 0$	f. $45 \square 65 - 10$

11. The numbers are broken into tens and ones. Fill in the missing parts.

a. $48 = \underline{\quad} + 40$	b. $\underline{\quad} + \underline{\quad} = 62$	c. $\underline{\quad} = 5 + 60$
----------------------------------	---	---------------------------------

12. Which is more, two quarters or one half?
Coloring the parts in the pictures may help.

13. Write the time for a half-hour later. Use numbers.

Now it is:	a. 1:00	b. 11:30	c. 9:00	d. 6:30
a half-hour later, it is:	<u> </u> : <u> </u>	<u> </u> : <u> </u>	<u> </u> : <u> </u>	<u> </u> : <u> </u>

14. Find the “mystery numbers”! You will need to think logically.

a. This number has one more ten than 20 has, and the same amount of ones as 63.	b. This number has two less ones than 88, and six more tens than 24.
--	---
