

Cumulative Review, Grade 1, Chapters 1-9

1. Count Aiden's socks, T-shirts, and pairs of pants. Make a bar graph.

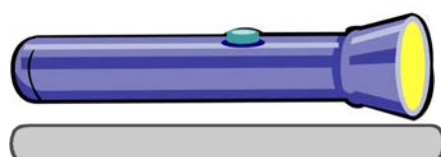

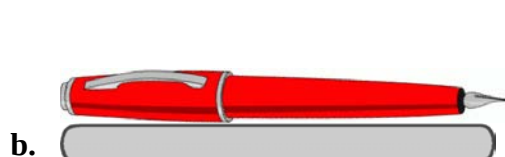

(You can use the empty table to help you organize the data, if you like.)

T-shirts	
socks	
pants	

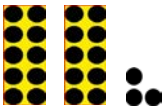

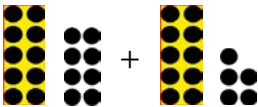

2. Compare the things to the “measuring stick.” Mark the longer of the two.

3. Add. Under each doubles fact, write the sum that is just one more.

a. $7 + 7 = \underline{\hspace{2cm}}$ $7 + \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$	b. $8 + 8 = \underline{\hspace{2cm}}$ $8 + \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$	c. $6 + 6 = \underline{\hspace{2cm}}$ $6 + \underline{\hspace{1cm}} = \underline{\hspace{2cm}}$
---	---	---

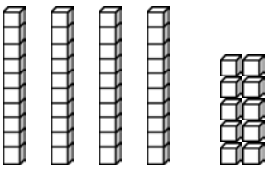

4. Write the addition equation that the pictures illustrate.

 a. $\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$	 b. $\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$
---	---

5. Add.

a. <table> <tr> <td>2 tens</td> <td>6 ones</td> </tr> <tr> <td>+ 5 tens</td> <td>6 ones</td> </tr> <tr> <td colspan="2"> </td> </tr> <tr> <td><u> </u> tens</td> <td><u> </u> ones = <u> </u></td> </tr> </table>	2 tens	6 ones	+ 5 tens	6 ones			<u> </u> tens	<u> </u> ones = <u> </u>	b. <table> <tr> <td>7 tens</td> <td>4 ones</td> </tr> <tr> <td>+ 1 ten</td> <td>6 ones</td> </tr> <tr> <td colspan="2"> </td> </tr> <tr> <td><u> </u> tens</td> <td><u> </u> ones = <u> </u></td> </tr> </table>	7 tens	4 ones	+ 1 ten	6 ones			<u> </u> tens	<u> </u> ones = <u> </u>
2 tens	6 ones																
+ 5 tens	6 ones																
<u> </u> tens	<u> </u> ones = <u> </u>																
7 tens	4 ones																
+ 1 ten	6 ones																
<u> </u> tens	<u> </u> ones = <u> </u>																
c. <table> <tr> <td>4 tens</td> <td>9 ones</td> </tr> <tr> <td>+ 2 tens</td> <td>7 ones</td> </tr> <tr> <td colspan="2"> </td> </tr> <tr> <td><u> </u> tens</td> <td><u> </u> ones = <u> </u></td> </tr> </table>	4 tens	9 ones	+ 2 tens	7 ones			<u> </u> tens	<u> </u> ones = <u> </u>	d. <table> <tr> <td>2 tens</td> <td>8 ones</td> </tr> <tr> <td>+ 2 tens</td> <td>3 ones</td> </tr> <tr> <td colspan="2"> </td> </tr> <tr> <td><u> </u> tens</td> <td><u> </u> ones = <u> </u></td> </tr> </table>	2 tens	8 ones	+ 2 tens	3 ones			<u> </u> tens	<u> </u> ones = <u> </u>
4 tens	9 ones																
+ 2 tens	7 ones																
<u> </u> tens	<u> </u> ones = <u> </u>																
2 tens	8 ones																
+ 2 tens	3 ones																
<u> </u> tens	<u> </u> ones = <u> </u>																

6. Subtract.

a.  $50 - 8 = \underline{\hspace{2cm}}$ $50 - 3 = \underline{\hspace{2cm}}$ $50 - 6 = \underline{\hspace{2cm}}$	b. $70 - 5 = \underline{\hspace{2cm}}$ $70 - 2 = \underline{\hspace{2cm}}$ $70 - 1 = \underline{\hspace{2cm}}$ $70 - 9 = \underline{\hspace{2cm}}$	c. $100 - 3 = \underline{\hspace{2cm}}$ $100 - 6 = \underline{\hspace{2cm}}$ $100 - 4 = \underline{\hspace{2cm}}$ $100 - 7 = \underline{\hspace{2cm}}$
---	---	---

7. Draw marbles for the child whose box has none.

Nova Amir a. Nova has 2 fewer than Amir.	Jim Nina b. Jim has 3 fewer than Nina.
---	---

8. Solve.

a. Joshua has nine T-shirts, and that is two fewer than what Seth has.
How many T-shirts does Seth have?

b. Anita baked two kinds of cookies: 30 ginger cookies and also some chocolate cookies. She had 10 fewer chocolate cookies than ginger cookies.

How many chocolate cookies did she bake?

9. Add and subtract.

a. $8 + 9 =$ _____ $7 + 8 =$ _____ $5 + 6 =$ _____	b. $25 - 10 =$ _____ $38 - 10 =$ _____ $100 - 10 =$ _____	c. $52 + 7 =$ _____ $35 + 3 =$ _____ $26 + 2 =$ _____
---	--	--

10. First subtract to 10. Then subtract the rest.

a. $15 - 7$ $\begin{array}{r} 15 \\ - \quad \end{array}$ $\begin{array}{r} 7 \\ - \quad \end{array}$ $=$ _____	b. $14 - 9$ $\begin{array}{r} 14 \\ - \quad \end{array}$ $\begin{array}{r} 9 \\ - \quad \end{array}$ $=$ _____	c. $16 - 8$ $\begin{array}{r} 16 \\ - \quad \end{array}$ $\begin{array}{r} 8 \\ - \quad \end{array}$ $=$ _____
--	--	--
