
Cumulative Review, Grade 1, Chapters 1-10

1. Fill in the missing numbers, counting by ones.

101	102			105					
								119	

2. Some children counted how many stuffed animals they had.

- How many does Alice have?
- How many does Aaron have?
- How many more stuffed animals does Maria have than Aaron?
- How many more stuffed animals does Alice have than Aaron?
- Alice gave 3 stuffed animals to Aaron. Now how many does Alice have?

And Aaron?

(Optional: In the empty space on the graph, you can draw a bar for how many stuffed animals you have.)

3. Solve. Write an addition or a subtraction for each problem.

(Write a + or – symbol in the box.)

- a. For a birthday party, Sam set eight chairs around one table and five around another.
How many people can sit at the two tables?

$$\underline{\quad\quad} \boxed{} \underline{\quad\quad} = \underline{\quad\quad}$$

 people can sit at the tables.

- b. At that party, there were 14 balloons at first. But five of them popped.
How many balloons are left?

$$\underline{\quad\quad} \boxed{} \underline{\quad\quad} = \underline{\quad\quad}$$

 balloons are left.

4. Add and subtract.

a.
$$\begin{array}{r} 25 \\ + 30 \\ \hline \end{array}$$

b.
$$\begin{array}{r} 52 \\ + 34 \\ \hline \end{array}$$

c.
$$\begin{array}{r} 78 \\ - 15 \\ \hline \end{array}$$

d.
$$\begin{array}{r} 86 \\ - 44 \\ \hline \end{array}$$

5. Sketch (draw) shapes that fit the descriptions below.

- a. • The shape has six sides.

- b. • The shape has four sides.
• two of the sides are the same length.

- c. • The shape has four sides.
• Each corner is a “square” corner.

- d. • The shape has three sides.
• Each side is the same length.

6. Solve.

Mom baked 20 muffins. Maya ate two, Jacob ate one, and Lily ate two.

How many did the three children eat?

How many are left now?

7. Add using the nine trick and the eight trick.

a. $9 + 8 = \underline{\hspace{2cm}}$

b. $9 + 3 = \underline{\hspace{2cm}}$

c. $9 + 5 = \underline{\hspace{2cm}}$

$8 + 8 = \underline{\hspace{2cm}}$

$8 + 4 = \underline{\hspace{2cm}}$

$7 + 8 = \underline{\hspace{2cm}}$

8. Subtract using addition.

a. $15 - 7 = \underline{\hspace{2cm}}$

$(7 + \underline{\hspace{1cm}} = 15)$

b. $14 - 8 = \underline{\hspace{2cm}}$

$(8 + \underline{\hspace{1cm}} = 14)$

c. $13 - 9 = \underline{\hspace{2cm}}$

$(9 + \underline{\hspace{1cm}} = 13)$

d. $16 - 8 = \underline{\hspace{2cm}}$

e. $12 - 7 = \underline{\hspace{2cm}}$

f. $14 - 9 = \underline{\hspace{2cm}}$

9. Draw circles to make these amounts of money. Put **1** on pennies, **10** on dimes, **5** on nickels and **25** on quarters. Use the least number of coins possible.

a. 32¢

b. 15¢

c. 26¢

d. 80¢

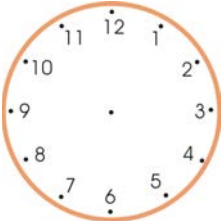

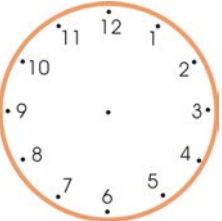

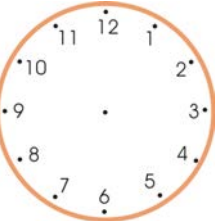

e. 66¢

f. 43¢

10. You bought an item. How much money do you have left?

a. You have:  You bought a bar of soap for 60¢. How much is left? _____ ¢	b. You have:  You bought a toy for 86¢. How much is left? _____ ¢
---	--

11. Draw the hands on the clock.

 a. half past one	 b. five o'clock	 c. half past ten
--	---	--

12. Find the “mystery numbers”!

a. This number has three more tens than 50 has, and the same amount of ones as 13.	b. This number has seven less ones than 29, and six more tens than 17.
--	--

Puzzle Corner

Each shape represents a number. Solve what they are in each case (a, b, and c).

Hint: Make a guess! Then check if your guess is correct. If not, change your guess.

a.  +  = 6  +  = 8	b.  +  = 7  +  = 10	c.  +  +  = 7  +  = 5
--	---	---
