

Cumulative Review, Grade 1, Chapters 1 - 6

1. Write an equation, using two “math notes” or stickers that are equal in value.

a. 3 $6 - 3$ $5 + 1$ Equation: _____ = _____	b. 7 $10 - 2$ $2 + 6$ Equation: _____ = _____
c. $2 + 5$ 9 $10 - 4$ 6 Equation: _____ = _____	d. $3 + 4$ 5 $9 - 2$ 8 Equation: _____ = _____

2. Add and subtract.

a. $50 - 20 =$ _____	b. $70 + 20 =$ _____	c. $80 - 40 =$ _____
$100 - 30 =$ _____	$50 + 30 =$ _____	$20 + 80 =$ _____

3. Add. You can color the numbers you want to add first!

a. $3 + 3 + 1 + 1 =$	b. $1 + 7 + 1 + 2 =$
c. $3 + 1 + 0 + 2 =$	d. $2 + 2 + 2 + 4 =$

4. Are these equations true or false? Circle the correct word.

- a. $10 - 2 = 7$ true or false b. $8 = 2 + 5$ true or false
- c. $9 = 2 + 7$ true or false d. $4 = 8 - 3$ true or false

5. Compare. Write $<$, $>$, or $=$.

a. $2 + 3$ $5 + 1$	c. $8 - 2$ 4	e. 6 $4 + 2$
b. $6 + 4$ $8 + 2$	d. $7 - 4$ 5	f. 8 $9 - 1$

6. Solve. Write an addition or a subtraction for each problem.

(Write a + or – symbol in the box.)

- a. Mom put 10 roses in a vase. Six were red and the rest were yellow.

How many were yellow?

_____ were yellow.

$$\underline{\hspace{1cm}} \boxed{} \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

- b. Susan picked a bunch of cucumbers from the garden. The family ate two of them at lunch.

Now there are seven left. How many did Susan pick at first?

She picked _____ cucumbers at first.

$$\underline{\hspace{1cm}} \boxed{} \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

7. Which equation matches the question? Solve.

Seven children were playing in the park.

It started raining, so some of them went home. Just two children stayed.

How many went home?

$$7 - \text{orange circle} = 2$$

$$7 + 2 = \text{orange circle}$$

$$\text{orange circle} - 7 = 2$$

8. Subtract.

a. $7 - 2 - 1 = \underline{\hspace{1cm}}$

b. $10 - 5 - 2 = \underline{\hspace{1cm}}$

c. $9 - 3 - 3 = \underline{\hspace{1cm}}$

9. Solve for the missing numbers.

a. $8 - \text{blue triangle} = 5$

$\text{blue triangle} = \underline{\hspace{1cm}}$

b. $\text{red triangle} - 2 = 4$

$\text{red triangle} = \underline{\hspace{1cm}}$

c. $9 = \text{light blue triangle} - 1$

$\text{light blue triangle} = \underline{\hspace{1cm}}$

Puzzle Corner

This addition table has some of the answers already in it, but the numbers to be added are missing. Figure them out, and complete the table.

+	2		3	
	3	6		5
5		10	8
